- Secure manager self-service portal
  - Reporting-only access portal for managers.
  - Managers create reports on authorized groups without assistance from IT.
  - Easy-to-read, manager-friendly, actionable reporting dashboard.
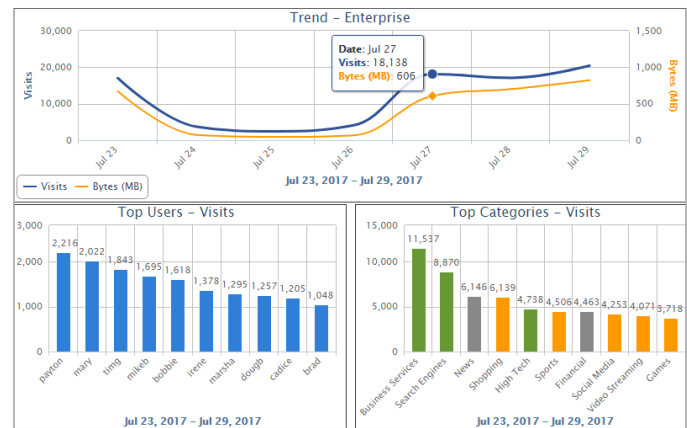

Technical Advantages

- **Machine-Learning Analytics.** Utilizes proprietary algorithms to rapidly provide superior insights and translation of Web-use data.
- **Built-In Syslog Server.** Directly connect syslog-enabled devices.
- **Active Directory Support.** Seamlessly integrate with Active Directory.
- **Automatic List Updates.** Stay on top of the latest Web 2.0 trends.
- **Minimal-Effort Administration.** Administer through the browser with ease.
- **VM Installation.** Deploy in VMware and Hyper-V environments.
- **VM Array.** Handle large amounts of data depending on your environment and performance needs.
- **Adaptability.** Support log file formats regardless of proxy server or firewall.

Flexible VM Deployment

Cyfin Virtual Appliance is ready to be downloaded and installed on your VM server. We support both VMware and Microsoft Hyper-V environments. Our VMware-compatible files can be imported into many VM systems in the industry.

Cyfin Virtual Appliance can also be deployed on Hyper-V which is built into Windows versions 8 and later, a common operating system that you are already familiar with. Hyper-V is also included in Windows Server. There is nothing to purchase when deploying on Hyper-V.

Subscription Service

- U.S.-based Wavecrest Technical Support programs available
- Continuous URL List updates
