

CyBlock for ISA/TMG

Deny or allow access to Web sites that you specify.

CyBlock for ISA/TMG is a precision Web filter that can block or allow access to any Web site by employee, department or enterprise. Designed specifically to support Microsoft ISA Server or Forefront TMG, it also provides IT, HR and management with a variety of actionable employee Web-use reports. All reports can easily be configured to show as much or as little data as desired, and several can automatically flag Web abuse in accordance with your own usage policy.

Key Features

- **Web Filtering.** Block social networks, video/music streaming, downloads, etc.
- **Comprehensive Coverage.** Filter over 500 million Web pages in 74 categories.
- **Employee-Focused Reporting.** Get accurate, actionable Web-use reports.
- **Productivity Protection.** Block games, shopping, sports and more.
- **ISA Server and TMG Plug-in.** Integrate easily with your ISA 2004, 2006 or TMG Server(s).

Filtering

- **White List Filtering.** Create 'allowable' lists for users and groups.
- **Scheduled Blocking.** Allow employees to access blocked categories during lunch.
- **Personalized Block Policies.** Design block policies to match your AUP.
- **Custom Categories.** Add unique categories to block specific sites.
- **Customizable Block Message.** Link to your own blocking message or AUP.

Reporting

- **Dashboard.** See an overall picture of the organization's Web activity.
- **Top Charts.** Get a quick view of the top users, groups, categories, and sites.
- **Trend Charts.** Easily spot spikes in bandwidth and employee Web use.
- **Automatic Abuse Detection.** Identify Internet abuse immediately in Web reports.
- **Interactive Reporting.** Drill down to more detailed data in reports.
- **Report Scheduler and Distribution.** Run and distribute reports automatically.
- **Operator Accounts.** Provide reporting-only access to managers and HR.
- **VIP Exclusion and Anonymous IDs.** Exclude or hide login names from reports.

Pricing

Wavecrest's CyBlock solutions offer the industry's best value for Internet filtering and monitoring. CyBlock ISA / TMG is a licensed, subscription-based software product. Pricing is tiered, based on the number of people ("non-concurrent users") to be monitored. In general, the price-per-user decreases as the number of users goes up.

Every CyBlock ISA / TMG purchase includes:

- Free technical support
- Daily URL list updates
- Free product upgrades

Discount pricing is available for government agencies, educational institutions, non-profit organizations, and resellers. For more information, contact sales at 321-953-5351, ext. 3.

Wavecrest Computing

Wavecrest Computing has provided business and government clients with reliable, accurate Web use management software since 1996. IT specialists, HR professionals and business managers trust Wavecrest's Cyfin® and CyBlock® products to manage employee Internet usage - reducing liability risks, improving productivity, saving bandwidth and controlling costs.

Wavecrest has over 3,000 clients worldwide, including Procter & Gamble, General Electric, IBM, British Telecom, Miller Coors, Edward Jones, IKEA, Siemens, the US Army and a growing list of global enterprises and government agencies. Wavecrest Computing is a GSA Schedule Contractor. For more information on our company, products and partners, visit www.wavecrest.net.
