

Advanced Employee Web Filtering and Monitoring Cloud Service

CyBlock Employee Web Filtering and Monitoring Cloud Service provides advanced Web filtering, threat protection, comprehensive employee reporting, Smart Engine analytics, and more--all in a deployment requiring no hardware or software to buy and install, and no ongoing maintenance.

Advanced Web Filtering

- Configure policy exceptions for different users and groups.
- Use white & black lists to restrict or allow access to certain sites.
- Limit users' time online by hour and day of the week.
- Enable users to bypass a blocking action with coaching.
- Inspect or "tunnel" HTTPS by Web site, category, or user ID.
- Identify and stay ahead of a growing number of malware sites.

Comprehensive Employee Reporting

- Show activity by entire organization, groups, users, and categories.
- Get accurate, actionable, manager-ready detailed reports.
- View snapshots of Web activity identifying top Internet consumers.
- View trends and comparisons in Web activity.
- Easily distribute reports manually or schedule for automatic distribution.
- Dramatically reduce analysis time of your organization's Web use.
- Comply with government and industry regulations such as CIPA and HIPAA.

Smart Engine Analytics

- Makes technical data easy to consume and manager-ready.
- Utilizes precise algorithms to present accurate and up-to-date Web-use data.
- Distinguishes between user clicks (visits) and unsolicited traffic (hits).
- Analyzes large volumes of data over long periods of time.
- Feeds pertinent data to the reporting dashboards.

Audit Detail For ID "Technical Services Department/Banning, Payton (payton)"

Cloud Solution Benefits

- Supports main office, branch offices, and remote and roaming users.
- Performs all content filtering tasks in the cloud.
- Extends advanced threat protection to roaming users.
- Delivered as a service, managing all HTTP and HTTPS traffic and requiring no on-site equipment.
- Detects threats, controls access, and protects users anywhere.
- Consistent policy and security for all users regardless of location.
- Low Total Cost of Ownership (TCO) reducing IT costs and resources.

Technical Advantages

- **Directory Support.** Synchronize groups and IDs with CyBlock Directory Agent.
- **Automatic List Updates.** Stay on top of the latest Web 2.0 trends.
- **Minimal-Effort Administration.** No hardware or operating system software to support and maintain.
- **Quick Deployment.** Easily support remote users and branch offices.
- **Scalability.** Handle small to large amounts of data as your company grows.
- **Hybrid Option.** Integrate with enterprise-level CyBlock Virtual Appliance and Appliance solutions.

Security and Reliability

Our cloud data center is state-of-the-art SSAE 18, SOC 3, SOC 2 certified, HIPAA and HITECH audited infrastructure and is monitored 24/7/365 by a network operations center. The cloud computing infrastructure is housed in a secure, fireproof, climate-controlled facility with multiple direct connections to the Internet backbone. Rest assured that your data will be safeguarded.

Quick and Easy Setup in Minutes

Get up and running with these basic setup steps:

- Set enterprise browser policy to use the cloud service.
- Browse the Internet to generate traffic.
- Test blocking www.proxy.com.
- Run the Real-Time Web Monitor to view live traffic.

Evaluation Support

When needed, Wavecrest provides consultation and advice via telephone, live chat, or e-mail at no charge during the free trial period. Technical Support via WebEx (remote support) is also available.

Subscription Service

- No-charge, U.S.-based Wavecrest Technical Support by phone, live chat, WebEx, and e-mail for the lifetime of your license
- Continuous URL List updates
- Free product upgrades
