

Secure Employee Web Filtering Hybrid Solution

CyBlock Hybrid offers a flexible, secure Web filtering solution that combines a local CyBlock installation with a CyBlock Cloud service. The Hybrid deployment extends advanced Web filtering and threat protection to your off-premises employees and gives you comprehensive employee reporting with Smart Engine analytics on all employees.

Advanced Web Filtering

- Configure policy exceptions for different users and groups.
- Use white & black lists to restrict or allow access to certain sites.
- Limit users' time online by hour and day of the week.
- Enable users to bypass a blocking action with coaching.
- Inspect or "tunnel" HTTPS by Web site, category, or user ID.
- Identify and stay ahead of a growing number of malware sites.

Comprehensive Employee Reporting

- Show activity for the entire organization, main office, or remote employees by groups, users, and categories.
- View snapshots of cloud Web activity identifying top Internet consumers.
- View trends and comparisons in cloud Web activity.
- Get accurate, actionable, manager-ready detailed reports to further analyze cloud Web usage.
- Easily distribute reports manually or schedule for automatic distribution.
- Comply with government and industry regulations such as CIPA and HIPAA.

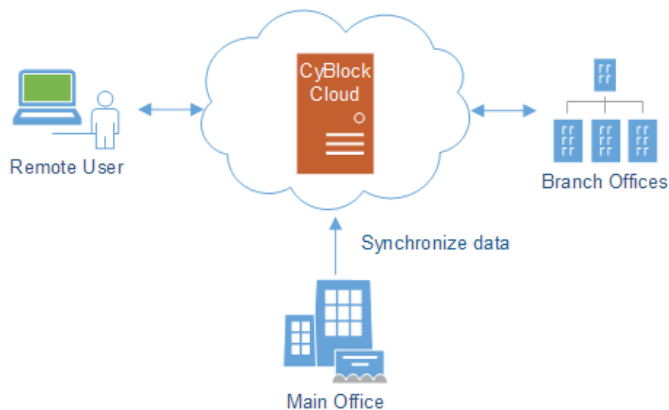

Smart Engine Analytics

- Makes technical data easy to consume and manager-ready.
- Utilizes precise algorithms to present accurate and up-to-date Web-use data.
- Distinguishes between user clicks (visits) and unsolicited traffic (hits).
- Analyzes large volumes of data over long periods of time.
- Feeds pertinent data to the reporting dashboards.

Hybrid Solution Benefits

- Integrate with CyBlock Appliance and CyBlock Software environments.
- Extend Web filtering and monitoring to your remote employees.
- No need to backhaul remote Web traffic through VPN to the main office, improving performance and user experience.
- Able to reach hard-to-manage remote locations.
- Manage the cloud service and local Web gateway from a single admin console.
- Complete enterprise view with reporting on both on-premises and remote employee Web traffic.
- Control over all data with cloud log data stored locally, not in the cloud.
- Reduced operating costs with secure, multi-tenant cloud infrastructure.

Technical Advantages

- **Installation Options.** Choose a CyBlock Appliance or CyBlock Software installation.
- **Quick Deployment.** Easily support remote users and branch offices.
- **Bandwidth Control.** Route remote employee Web traffic to the cloud server.
- **Zero Cloud Storage.** Transfer cloud Web activity details to your local CyBlock.
- **Array Support.** Manage multiple cloud configurations from one server.
- **Complete Enterprise View.** Aggregate cloud Web activity details with your local CyBlock.
- **Minimal-Effort Administration.** Administer through the browser with ease.
- **Support.** Access our knowledgeable support staff and services for free.

Fast and Effortless Setup

- Install enterprise-level CyBlock Software or CyBlock Appliance.
- Pair your local CyBlock installation with your CyBlock Cloud account.
- Local CyBlock configuration changes automatically sync with your cloud account.
- Run the Real-Time Web Monitor to view live traffic of remote employees.

Evaluation Support

When needed, Wavecrest provides consultation and advice via telephone, live chat, or e-mail at no charge during the free trial period. Technical Support via WebEx (remote support) is also available.

Subscription Service

- No-charge, U.S.-based Wavecrest Technical Support by phone, live chat, WebEx, and e-mail for the lifetime of your license
- Continuous URL List updates
- Free product upgrades
