

Advanced Employee Web Filtering and Monitoring

CyBlock, easily deployed on Windows or VMware, provides advanced Web filtering, threat protection, comprehensive employee reporting, Smart Engine analytics, easy-to-use admin and manager portals, and more.

Advanced Web Filtering

- Configure policy exceptions for different users and groups.
- Use white & black lists to restrict or allow access to certain sites.
- Limit users' time online by hour and day of the week.
- Enable users to bypass a blocking action with coaching.
- Inspect or "tunnel" HTTPS by Web site, category, or user ID.
- Identify and stay ahead of a growing number of malware sites.

Comprehensive Employee Reporting

- Show activity by entire organization, groups, users, and categories.
- Get accurate, actionable, manager-ready detailed reports.
- View snapshots of Web activity with drill-down capability, identifying top Internet consumers.
- View trends and comparisons in Web activity.
- Easily distribute reports manually or schedule for automatic distribution.
- Dramatically reduce analysis time of your organization's Web use.
- Comply with government and industry regulations such as CIPA and HIPAA.

Bandwidth Management

- Trigger alerts and throttle bandwidth.
- Set byte usage threshold limits.
- Cap or block nonessential bandwidth.
- Identify bandwidth hogs in real time.
- Monitor current employee bandwidth consumption.
- Get alerts and e-mail notifications when bandwidth thresholds are exceeded.

Smart Engine with Machine-Learning Analytics

- Makes technical data easy to consume and manager-ready.
- Analyzes large volumes of data over long periods of time.
- Provides rapid and superior data insights.
- Tags associate related domains with friendly names.

Technical Advantages

- **Machine-Learning Analytics.** Utilizes proprietary algorithms to rapidly provide superior insights and translation of Web-use data.
- **Directory Support.** Synchronize CyBlock with AD or another directory.
- **Automatic List Updates.** Stay on top of the latest Web 2.0 trends.
- **Minimal-Effort Administration.** Administer through the browser with ease.
- **VM Installation.** Deploy in VMware and Windows Hyper-V environments.
- **VM Array.** Handle large amounts of data depending on your environment and performance needs.
- **Multi-Copy Support.** Deploy multiple installations under 1 license.
- **Hybrid Cloud Option.** Safeguard all employees in the organization.
- **Support.** Access to our knowledgeable support staff and services.

Flexible Deployments

CyBlock can be deployed on Windows Hyper-V which is built into Windows versions 8 and later, and is included in all Windows Servers. Our Windows Installer will automatically install, configure and launch CyBlock within the Hyper-V environment. No previous Hyper-V experience required. The installer does everything for you.

CyBlock can also be deployed on VMware System.

Since 1996, Wavecrest Computing has provided business and government clients with reliable, accurate employee Web-access security, monitoring, and analytics solutions. IT specialists, HR professionals, and business managers trust Wavecrest's Cyfin and CyBlock products to manage employee Internet usage with today's distributed workforce in mind—monitoring VPN use, following roaming and remote users, managing and monitoring Web usage for hybrid work environments, comprehensive reporting on Microsoft 365 use, and more. Focused on our customer's needs—reducing liability risks, improving productivity, managing cloud services, saving bandwidth, and controlling costs. Wavecrest has clients worldwide, including Canadian National Railway, Johns Hopkins, Goodyear, USPS Office of Inspector General, Chevron, Health Choice Network, and a growing list of enterprises and government agencies. For more information on our company, products, and partners, visit www.wavecrest.net.

Installation & Eval Support

When needed, Wavecrest provides consultation and advice via telephone, live chat, remote, or e-mail at no charge during the free trial period.
