

Advanced Employee Web-Use Analysis & Reporting

Cyfin Cloud provides advanced employee Web-use analysis and reporting for a wide variety of gateway devices and log file formats. Comprehensive yet easy to use, its customized reporting capabilities supply audience-specific Web-use information with reliable metrics, easy-to-read reporting dashboards, manager-ready detailed audit reports, and machine-learning analytics.

Smart Engine with Machine-Learning Analytics

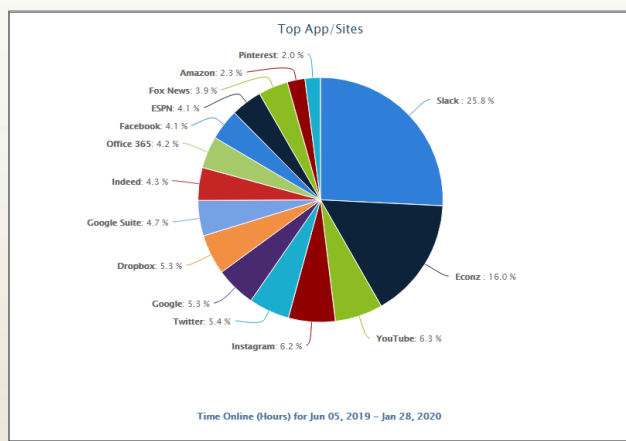

- Makes technical data easy to consume and manager-ready.
- Analyzes large volumes of data over long periods of time.
- Provides rapid and superior data insights.
- Tags associate related domains with friendly names.

Detailed User Audits

- Show activity by entire organization, groups, users, and categories.
- Get accurate, actionable, manager-ready detailed reports.
- See the exact search terms entered by users and their search time.
- Determine how much time a user spends online.
- View Web content most frequently visited by a user.
- Dramatically reduce analysis time of your organization's Web use.
- Comply with government and industry regulations such as CIPA and HIPAA.

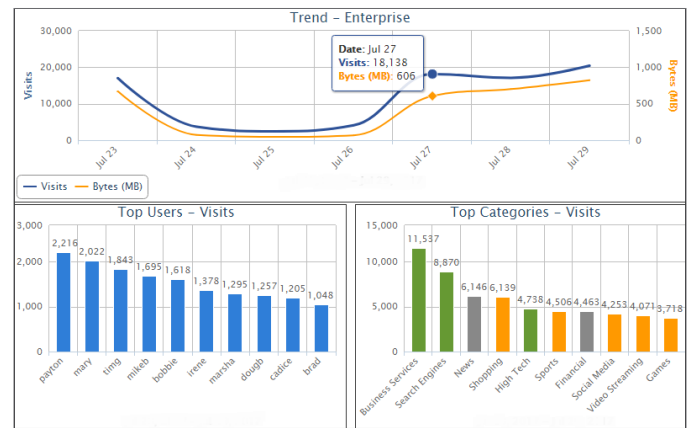

Managers Only See Actual User Web Browsing

- Create custom reports that provide management with exactly what they need.
- Accurately identify actual user clicks, providing clear, useful data.
- Reduce the volume of information by showing only relevant data.
- True team collaboration is now possible with pertinent reports for all stakeholders.

Manager Access

- Schedule and distribute reports
 - Send easy-to-read reports directly to managers.
 - Easily distribute reports manually or schedule for automatic distribution.
 - Managers drill down to detailed user Web activity with interactive capability.
- Secure manager self-service portal
 - Reporting-only access portal for managers.
 - Managers create reports on authorized groups without assistance from IT.
 - Easy-to-read, manager-friendly, actionable reporting dashboard.

Technical Advantages

- **Machine-Learning Analytics.** Utilizes proprietary algorithms to rapidly provide superior insights and translation of Web-use data.
- **Built-In Syslog Server.** Directly connect syslog-enabled devices.
- **Automatic List Updates.** Stay on top of the latest Web 2.0 trends.
- **Minimal-Effort Administration.** Administer through the browser with ease.
- **Adaptability.** Support log file formats regardless of proxy server or firewall.

Flexible Cloud Deployment

- Performs all reporting tasks in the cloud.
- Cloud-based reporting and analytics for any business size or type.
- Deploy in minutes with simple, intuitive steps.
- No additional cost for hardware, software, and no ongoing maintenance.
- Detects threats, controls access, and protects users anywhere.
- Low Total Cost of Ownership (TCO) reducing IT costs and resources.

Security and Reliability

Our cloud data center is state-of-the-art SSAE 18, SOC 1, SOC 2, SOC 3 certified, HIPAA and HITECH audited infrastructure and is monitored 24/7/365 by a network operations center. The cloud computing infrastructure is housed in a secure, fireproof, climate-controlled facility with multiple direct connections to the Internet backbone. Rest assured that your data will be safeguarded.

Installation & Eval Support

When needed, Wavecrest provides consultation and advice via telephone, live chat, remote, or e-mail during the free trial period.

Support Service

- U.S.-based Wavecrest Technical Support programs are available.

Log File Support

Cyfin supports Palo Alto, SonicWall, Check Point, WatchGuard, Cisco, Fortinet, and Sophos log file formats, and many more.

SSL Inspection

To take full advantage of Cyfin's high precision algorithms SSL inspection needs to be enabled on your firewall.
